

# John Paul College Medical Management Communication Plan

## How staff members and volunteers are informed about students with medical needs

### Staff Members and volunteers

*[General information about how communication will occur and where to find the medical management and health plans for students who have a diagnosed health care need, allergy or relevant medical condition and how staff will be informed of requirements]*

Prior to a child with a diagnosed health care need, allergy or relevant medical condition commencing at John Paul College a Medical Management Plan authorised by the treating medical / health practitioner is required so that the school can enact appropriate care. John Paul College will provide each staff member and volunteer (as appropriate) with access to the Medical Management Policy and teachers will be notified of students that have a Medical Management Plan and associated Student Health Plan and the practices required.

Parents are informed of how they can communicate any changes to the health care needs of their child through the enrolment policy, and regular reminders provided through the school newsletter, Program Support Group Meetings, Parent Teacher Meetings/Year level briefings, camps and excursion notifications.

### Policies and Procedures

John Paul College provides staff with information about the requirements of the managing health care needs in the following policies, procedures and guidance materials.

Staff are required to be familiar with the following policies and procedures.

| Item                                    | Location                                                                                                                                                                                                                                      | Responsibility for                  | Applicable to          | Updated   |
